

# First Deep Clean for Charmouth Beach

**24<sup>th</sup> – 28<sup>th</sup> January 2024:**

pioneering beach clean experts, **Nurdle**, are in town. Whatever the weather, they'll be working hard to remove the hundreds of thousands of plastic pellets that litter our shoreline and river mouth, using their range of ingenious machines..

It will be cold; it will be wet; it will be worth it! Josh and the team would love to meet you.

**What you can do:** come to the foreshore any day (Weds-Sunday) any time before dusk to show your support, lend a hand or to find out more.

**Sat 27<sup>th</sup> January 2024 10-11.30 am: The Mega-Micro Charmouth Beach Clean**

A family-friendly morning at the river mouth. Join us on a Golden Nurdle Hunt, help 'hoover' Charmouth Beach, hear why these microplastics matter, learn more about some other ways we can all take care of our river and coast.

And keep a look out for our River Dragon, Misty. She's planning to drop by to keep an eye on things on things, and we know she loves an audience!

**What you can do:** Please join us any time between 10 and 11.30 on Saturday morning, 27<sup>th</sup> January.

**10<sup>th</sup> – 14<sup>th</sup> March, 2024:** Nurdle's **Second Deep Clean** gets underway. Keep an eye out for further associated events, including a talk by Nurdle's founder, Joshua Beech.

*The **Charmouth Deep Clean** is a collaboration between The Lower Char Community Project and Charmouth Heritage Coast Centre, supported by Charmouth Parish Council and funded by South West Water.*
